

# **Weather Stations**

## **For the Harshest Places on Earth**

- Full sensor suites: wind, temperature, humidity, dew point, precipitation, water level, tide height, visibility and more
- Battery and/or solar power (low power consumption)
- Withstands temperature, salt and moisture extremes
- Double O-Ring sealed and 6061-T6 Mil-Spec anti-corrosive aluminum protected by baked-on thermoplastic resin

### **So who Depends on Coastal Weather Stations?\***

#### **\*The National Weather Service**

The only weather stations to survive and operate in the Hurricane Katrina impact area were the four built by Coastal. The U.S. NWS owns more than 700 Coastal weather stations in every state.
