

COASTAL
ENVIRONMENTAL SYSTEMS

Environmental Policy

As a manufacturer of products for environmental monitoring, Coastal Environmental Systems, Inc. is dedicated to the practice of sound environmental stewardship and promotion of the health, safety, and well-being of our employees and neighbors. These are core values of executive leadership and are emphasized throughout the organization.

As such, Coastal:

- Ensures its products and business practices meet all federal, state, local and company environmental, safety, and health standards
- Provides a workplace free of recognized hazards and maintains healthy working conditions for all employees
- Reduces use of paper where possible by utilizing internal and external websites to post documents rather than printing them (this includes operating manuals and training materials for customer use)
- Participates in recycling to the greatest extent practical to reduce impact on landfills and promote recovery and sustainable use of valuable resources
- Encourages employees to participate in vanpools, carpools, and to use mass transit where viable
- Strives to continuously improve its products and business practices to minimize environmental impact, reduce waste, and improve sustainable use of resources for ourselves, our community, and our customers
